ABSTRACT

This document provides statistical data about dropouts and graduates of the Iowa public schools, presented in the form of tables and graphs. Much of the data is presented in enrollment categories based on size of the school population and merged areas. These tables and graphs are included: (1) fiscal 1987 secondary school dropout rates by enrollment categories and merged areas; (2) dropouts by gender in enrollment categories and merged areas; (3) grade distribution of dropouts by enrollment categories; (4) percentage of total enrollment versus percentage of total dropout population compared by enrollment categories; (5) percentage of total enrollment versus percentage of total dropout population compared by merged areas; (6) dropout information by county; (7) an 18-year composite for fiscal years 1970-1987 of dropouts by grade; (8) graduate follow-up totals for the state for 1986 showing type of post-high school education or type of employment or other occupation, also compared by enrollment categories and merged areas; and (9) an 18-year composite for fiscal years 1969-1986 for status of graduates. FOREWORD

This publication contains:

1) The secondary school dropouts (grades 7-12) from Iowa's public schools for fiscal year 1987 by state, size category, merged area, and county.

2) The primary status of Iowa's 1986 public high school graduates one year after graduation by state, size code, and merged area.

These data are collected annually via the Secretary's Annual Report, the Iowa Department of Education's major local district data collection document.

This graduate and dropout data collection is an ongoing effort of Guidance Services of the Department of Education. A significant responsibility of such an effort is to meaningfully communicate results to potential users. This publication, though limited in scope and sophistication, fulfills in part that obligation.

Guidance Services again expresses its appreciation to Iowa's public school administrators and counselors for it is only with their cooperation that we are able to make these data available. Further, an expression of gratitude goes to the Bureau of Internal Operations and the Bureau of Planning, Research and Development of the Department of Education for their assistance in this effort.
